Description Since ancient times Slavic peoples knew about the healing power of sea buckthorn oil. The sea buckthorn fruit contains organic acids, sugars, vitamins C, E, K, B1, B2, B6, B9, as well as macro- and microelements (magnesium, iron, calcium, manganese, silicon, nickel, and molybdenum), amino, mono- and poly-unsaturated fatty acids, phytosterols, phospholipids.

Useful elements of sea buckthorn oil allow to use it as a multivitamin remedy for vitamin deficiency and also to improve physical and mental activity .

Sea buckthorn oil is used as an antibacterial agent.

Sea buckthorn oil is useful in treatment of the digestive system. The components of the oil reduces the acidity of the gastrointestinal tract, heal gastritis and ulcers, help for hepatitis.

Useful properties of oils help to eliminate various defects of the skin: oil smoothes the joints, heals sores, burns, ulcers .

Sea buckthorn oil is effectively used for radiation, chemical, radioactive skin lesions.

Useful properties of sea buckthorn oil is also used in the treatment of dental diseases: stomatitis, pulpitis, periodontitis.

From time immemorial it is known about the effectiveness of sea buckthorn oil in the treatment of gynecological diseases associated with erosions and tumors.
